THE GIRL I TRIED TO KNOW.

When in a reverie serene  
I stray with willing feet  
To the time when I was young and green  
And mirth and merriment  
There comes to me a memory  
Of the days of long ago,  
And the pretty, sun-browned face I see  
Of that girl I used to know.

We "went 'prentice" moon and moons;  
Together we rode and strolled;  
Together we spent our afternoons  
And romanced in moonlight cold  
Till all the town had set it down  
On the cards as certain "go"  
Between myself and that maiden brown—  
That girl I used to know.

There are surprises in the years,  
That girl and I again,  
Forgot each other without tears  
Or damage of the heart,  
I met her once—the other day—  
With another girl in tow.  
"No daughter, sir," I heard her say—  
That girl I used to know!

And so I wonder, as I read  
Those pleasant yesterdays,  
If yet it may not come to be,  
In time's uncertain way,  
That I may learn to fall in love  
As in the long ago,  
But his time with the daughter of  
That girl I used to know!

## STEAMBOAT MATTERS.

WHAT IS GOING ON ALONG THE BEAUTIFUL OHIO RIVER.

Driftwood gathered on shore at a stream by the Ledger's Weather-Beaten Old War and Piled Up Ready For Use.

There is only two feet of water in the channel at Portsmouth—the lowest for eight years.

The M. P. Wells, now trying to run between this city and Cincinnati, spends most of her time on the bar at Eight Mile.

The Cincinnati papers announce that there will be no more boats for Upper Ohio points until further notice—that is, until there is a rise in the river or until it goes dry and a dead line is started along its bed.

REMEMBER, THE LEDGER prints "Help Wanted," "Lost," "Found," and similar notices not of a business character, free of charge. The only thing we require is that the copy be sent in before 9 o'clock on day of publication.

NEAR Scott's Ridge Station, Marion county, Dan Horton emptied a load of shot into his wife and the babe she had in her arms. The child will recover but it is thought the wife will die. The authorities promised to arrest Horton a day or two ago.

NEAR Grayson Sylvester Adams was shot and instantly killed, and his nephew, Oscar Adams, seriously wounded by J. D. Channett. They had quarreled over the right of way to Adams and his nephew were beating Bennett with clubs when he shot them.

KENTUCKY now holds the fastest trotting record, Nancy Hanks 2:04; the fastest four-year-old stallion record, Monquette, 3:10; the fastest two-year-old record, Silbion, 2:14; the fastest race record, any age, Martha Wilkes, 2:08; the fastest three-year-old record for a filly, Kentucky Girl, 2:13.

M. E. BOWDITCH, a merchant of Bowling Green, was arrested at Louisville for having set fire to his store. At the same time Mr. Bowditch and a colored servant were arrested at the former place on the same charge. There was a big insurance on the stock and the fire occurred in a way that needs some explanation.

W. H. CHAFFIELD of Cincinnati wanted to make a living without working for it, so he went into stock gambling. Losing all he had, he induced his young wife to invest every dollar of her property, and to-day they are both broke. So much for backing against the religious trust.

If Chaffield had played honest faro, he would have been called a gambler, but as he tackled the "brass game" known as the Stock Exchange, he is only a "speculator."

GROVER CLEVELAND, when President, appointed a New York negro, as black as the ace of spades, over Colonel David Wintermath of Louisville, a white Kentucky Democrat, for Register of Deeds at Washington. The position was a \$30,000 one. How can those white men, who propose to scratch Judge Holt because he voted for a negro over a white man for a little \$23,000 a year office, swallow Grover Cleveland who gave a negro a \$30,000 job over a white Kentucky Democrat?

THE French were the originators of the modern exposition, and their first effort in this direction was in 1789, the idea having been suggested by Bonaparte just before he left on his ill-starred expedition to Egypt. When he returned and became First Consul he encouraged the idea, and between 1801 and 1815 half a dozen expositions were held in Paris. They were so popular and so profitable that the French continued them, and the last great fair held in Paris was the most successful ever known.

A CINCINNATI saloon-keeper, whose place of business was entered by burglars, has published a funny advertisement in one of the papers. "I invite those who were impolite enough to call on me during my absence and helped themselves to my wine, lunch, beer and cigars, to come again when I am at home. If they will return the empty bottles I will pay them three cents apiece for them. Should they desire to bring any of their friends I will see to it that they have the same treatment. For musical entertainment is arranged for their benefit."

## MRS. MARY ANN RUSSELL.

The End of a Noble Christian Life—Funeral at 10 o'clock This Morning.

Mrs. Mary Ann Russell, wife of Christopher Russell and mother of M. C. Russell, died at her home on East Third street at 6 o'clock Saturday evening after an illness of several weeks.

She was a most estimable lady and possessed a noble Christian character. For long years she had been a devoted member of the Christian Church. A wide circle of friends and acquaintances, who had the highest regard and esteem for her, will be grieved to learn of her death.

The maiden name of the deceased was Miss Mary Ann Mauls. She was a native of Pennsylvania, having been born in that state on June 14th, 1814. In November, 1839, she was united in marriage to Christopher Russell in Highland county. O Her husband survives her and is among our most respected citizens. Since their marriage they have always been residents of Mayville. Of seven children born to this union but M. C. Russell of this city is left.

The funeral will occur at 10 o'clock this morning from her late residence, services by Rev. C. S. Lucas, Pastor of the Christian Church.

MR. AND MRS. SIDNEY DREW as stars will be at Washington Opera house one night only—Wednesday, October 26th.

ALBERT C. CONINGTON of Millersburg parted with a female friend and his gold watch at the same time in Cincinnati a few evenings since.

CINCINNATI was adjourned until the 10th of November—two days after the election. It is thought that most of the lawyers and litigants will have reduced their heads to the proper size by that time.

At Wellburg, Bracken county, Saturday morning, Stuart Smith, a young man, accidentally discharged a shotgun, the contents entering the body of Miss Mertie Brevard, a young lady who lived in the family. She was alive at last accounts, but her condition is critical.

A SPECIAL to *The Commercial Gazette* from Augusta says: J. P. McCartney, Republican candidate for Congress in the Ninth District, addressed a very large audience at Louisville yesterday. The crowd was enthusiastic over his eloquent thrills at Democracy, and the prospects are quite flattering for his election.

The prices to see Mr. and Mrs. Sidney Drew are: Gallery 25, Balcony 35, Dress Circle 50, Parquet 75 cents. At Opera house October 26th.

DR. M. S. SALE of Lexington, owner of Temple Bar, the sensational trotting stallion and who was ruled out, together with his horse at Cleveland last year, is red-hot over the way his horse has been treated by the Board of Review. He says he is debating in his mind whether or not to have all the members of the board arrested for defamation of character and prosecute them to the full extent of the law.

## A NORTH BRACKEN COUNTY.

Martin Finn of Brookville an Honor to Irish-Americans.

Martin Finn is a native of Ireland, a fact of which he is not at all ashamed, and no one has cause to be ashamed of it for him. He came to this country in 1858, going directly to Brookville, and there he has remained ever since, not only "growing up" with the country, but raising a worthy family as well, thus helping the country to grow up with him. Immediately on his arrival he began work on the turnpike, and it was not long until he became a contractor for a portion of the road that leads to Milford. On the completion of his contract the company owed him some \$600, without the ability to pay it, and it is one of the incidents of his life that although he has a long-standing judgment against the company, on which considerable has been paid, the balance of the original debt and interests exceeds \$1,000.

Several years ago Mr. Finn engaged in the hotel business, and his house has long been the resort for all who are interested in that section. The Finn Hotel is one of the institutions of Bracken county, and for genuine hospitality and plenty of good eating it is second to no other house in this part of Kentucky.

Mr. Finn has acquired a handsome competency, and it is THE LEDGER'S wish that he may be spared to enjoy it for many years.

A Child in Danger.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things made. For sale by Power & Reynolds, Druggists.

## THE CAMPAIGN IN GREENUP.

A Good Morning and Deep Interest at the Court-house Saturday Night.

There was a large gathering at the Court-house on Greenup Saturday night, notwithstanding the inclement weather. Speeches were made by Hon. B. F. Bennett, Greenup's Representative in the Legislature, and Thomas A. Davis of this city.

Judge Bennett confined himself principally to the work of the Democratic Legislature, and said that the impression that that body had not done anything was entirely erroneous. He asked his hearers to be patient until the Sheriff came around after the adjournment, and the Legislature had raised their taxes for one thing. It had also employed a lot of good little boys as "messengers" at 83 a day, when the Constitution only permitted the employment of four pages. But the pages were lonesome, and it was thought best to have four "messengers," so they could form four sets for boxing matches to entertain the loungers about the halls.

The Judge's satire was very amusing, and throughout his speech was strong and effective.

The Republicans are alive to the importance of the work before them, and express great confidence in the success of the ticket in that county. If every county was as well equipped as Greenup, Harrison would win in Kentucky in a canter.

The official figures of the recent sales of trotters at Lexington show they were the most successful ever held there. The Abdullah Park sale realized \$80,693 for 128, an average of \$630.20. The regular sale realized \$188,959 for 231, an average of \$799.55. The two sales amounted to \$305,790 for 359, a grand average of \$743.

The Directors of the Kentucky Trotting Horse Breeders' Association say there is no truth whatever in the rumor that the future meetings of the Association will be held in Louisville. The meeting will continue to be held in Lexington, but it is more than likely a new regulation mile track will be built that will be as fast as any in the United States.

COLONEL WILLIAM ORT, formerly of this city, has purchased the Hisey House at Concord. It has been thoroughly overhauled and refitted, and will be known hereafter as the Sherman House. Those who favor Colonel Ort with their patronage may rely upon the best treatment and a generous supply of the best that the market affords. See advertisement elsewhere in THE LEDGER.

## SENATOR BLACKBURN.

His Speech Saturday Night a Fair Sample of Modern Democracy.

Senator J. C. Blackburn addressed the citizens of Mayville at the Court-house on Saturday night. Of course it was a political speech and a Democratic one at that. A large crowd greeted him composed of about as many Republicans as Democrats.

The speaker's references to Cleveland and his speech on Congress and Reconstruction was altogether forgotten. The Tariff was handled sparingly. The Force Bill, already so changed and perverted by a Democratic Congress for campaign purposes that it leaves but little resemblance to the original statute, was touched and exaggerated by the imaginative Senator.

The Democrats are pursuing different tactics toward the colored man in this campaign. Heretofore their politeness toward him at election time has been remarkable. This time it is shown that they are satisfied that the colored man cannot be induced to vote with them; therefore the cry is "damn the nigger anyway." When Senator Blackburn was in Mayville last he was a candidate for election. Then he made it a point to have himself introduced to the prominent colored citizens. He could be seen all over the streets engaged in conversation with them. Then we saw the Blackburn. The time he was a Democrat.

In his speech he lauded the property of the country to the skies, but did not say that all of it was due to Republican measures and Republican legislation. His whole speech was full of nothing but a gigantic misrepresentation of every subject he touched.

W. G. Dearing preceded the Senator.

## Death from Diphtheria.

Milda, the eight-year-old daughter of Mr. and Mrs. A. Schaeffer, died at 8 o'clock Saturday night at the home of her parents on corner of Lexington and Second streets of diphtheria.

She had been ill but a few days, having been in the hospital for a few days, and she died peacefully showing herself on Tuesday last.

The funeral occurred at 8 o'clock yesterday afternoon. Mr. and Mrs. F. P. Haldy of Cincinnati, grandparents of the little one, did not arrive until 5 o'clock having missed the train.

The father and mother have the sympathy of all in their sorrow.

## AMONG THE RAILROADS.

THE STEEL HIGHWAYS THAT LEAD TO AND FROM MAYSVILLE.

Home of the Rail That Have Staked Up and Piled Into The Ledger's Columns By a Thoroughly Competent Engineer.

The pay car of the C. and O. was here Saturday, and gold pieces are as thick about town as hops in a malshouse.

At Greenwood Charles Haynes and Lucien Patterson concluded to shoot out an old grudge, when John Jewett, a colored man, interposed as peacemaker. As usual he got the most of it, being shot and killed instantly. A man named Weatherford was wounded, Haynes was killed, and it appears that Patterson escaped unharmed. All in all, it is a regular picnic of shooting.

## Do You Know.

That a large percentage of deaths in this country are caused by consumption and lung trouble? A little cold neglected in the beginning often terminates in consumption. Every time you cough you increase the trouble, and an inflammation was soon started, which is difficult to cure. There is one remedy that cures every kind of a cough. That is Dr. Halsey's Household Cough Cure. It is the best. Are you not entitled to the best? For sale at 25c and 50c a bottle at Power & Reynolds' Drugstore.

## Armor Plates and Projectiles.

Recent tests of armor plates have brought out highly interesting and important facts. First the armor itself surprised highest expectations. Second, the great power of resistance it developed has made possible the building of the armor designed for three of our new war vessels without diminishing their protection in the least. Third, and best of all, it was discovered that the projectiles of home manufacture were superior to those of foreign make, notwithstanding that the making of armor piercing projectiles is of very recent date in this country. It seems that with only a few years experience we now surpass in almost every branch of naval and ordnance construction the great Nations of Europe, with their centuries of experience. This gratifying result has been brought about solely by the fixed Republican policy of insuring that every part of our new warships should be of American manufacture.

## Cholera.

When properly treated as soon as the first symptoms appear, cholera can nearly always be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colic, Cholera and Diarrhoea Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps, take it in double doses every fifteen minutes until relieved. This remedy has been used with great success in seven epidemics of dysentery that were almost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50 cent bottle at hand ready for instant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by Power & Reynolds, Druggists.

## Speech of English Language.

In 100 years the United States will probably have as many inhabitants as China, and it is not likely that Canada, Australia, New Zealand and the Cape will have much short of half that total.

Some have indeed been found to maintain that English will not be the language of the whole world, the United States, while there is seven millions of dysentery of the French spoken by the French Canadians and the recrudescence of Welsh in the British Isles as hints that languages die hard. But it is impossible to suppose that such considerations can affect the main question.

There are already signs that English is becoming the literary language of Europe. Professor Vambery, a Hungarian, published his autobiography first in an English dress, the English author of "The Sin of Good Availing" wrote his novel, "An Old Maid," in English, and the author of "The Crucifixion of Norway," himself pronounced a Norwegian, frankly owns his bad advertising, that is to obtain the largest possible circulation for his book, it will be written in the English language.

## MADMAN'S DEED.

Chas. Emmons Goes Insane and Breaks Into a Church.

Bullets, From the Pulpit Kept the Congregation out of Doors.

The Madman Provided Himself With Food, Red Fire and Revolvers and Buried the Church-Overcome With Sleep, is Finally Captured.

SPRINGFIELD, Mass., Oct. 24.—Gospel truth was presented at the point of the sword, also red fire and revolvers, at the Olivet Congregational church, Sunday morning. Charles M. Emmons, a gunmaker, employed in the United States armory, whose mind has long been unbalanced on religion, entered the church at midnight, and barricaded the pulpit, kept the police force at bay until Sunday afternoon.

Having provided himself with an abundance of ammunition and provisions for a week's stay Emmons had been holding the fort yet, had he not fallen asleep from sheer exhaustion. Several bullet holes in the wall and floor remained to recall a most remarkable Sunday.

Emmons bought a large supply of rockets, red fire, Roman candles, pin-wheels and powder. Saturday afternoon, and, taking them home, worked until midnight in the preparation of apparatus to discharge the fireworks, including a neighborly light by his pounding. He then gathered them all in a sack with several oil and alcohol lamps, and taking a crowbar with which to effect an entrance, started for the church, which he has attended fifteen years. Arriving at the church, three times through a door he was unopened, and, making his way to the pulpit, lighted his lamps, locked the doors at either side of the platform. Loud shouting followed, but his long meditation by eating sleep.

To try one of his pistols he fired a shot, startling the neighbors. Then the madman arrayed himself in his Sunday clothes, covering his face and hanging the big red bookmark of the pulpit Bible from a string around his belt. He also brought up a dozen guns from the vestry and set them on the stand.

When Sexton Dickinson arrived to begin his morning service he was confronted by the madman, started for the pulpit. Brandishing a revolver Emmons bade the sexton listen to the truth without interrupting him. Dickinson more he was asleep, and was being Emmons bade the sexton listen to the truth without interrupting him. Dickinson hastily retreated, but not before the lunatic had fired three shots into the air.

The officers of the church and the police were speedily summoned, but for more than three hours Emmons stood his ground with courage unflinching. Firing shots through a door he was when it was rattled, wheezing each time instantly to cover the rear whence the officers were hoping to pounce upon him. During this time through a door he was when it was rattled, wheezing each time instantly to cover the rear whence the officers were hoping to pounce upon him. During this time through a door he was when it was rattled, wheezing each time instantly to cover the rear whence the officers were hoping to pounce upon him.

The bass singer of the choir, as a last resort, fired a shot into the balcony, distance and inquired if there was no music at the service, being solemnly answered: "The daughters of music shall be laid low."

Despairing of ousting the lunatic, the plans of drowning him out with a hose or filling the church with smoke were considered and the madman was just as the hose was about to be tried it was noticed that Emmons had dropped into a chair and was nodding. In a moment more he was asleep, and four officers had pounced upon him. Emmons struggled fiercely, but the revolver was caught in his robe, and handcuffs were hastily. Then came up the struggle and was made a prisoner.

Upon search it was found that Emmons had secreted the pulpit into a veritable fortress. He had a large quantity of powder into the marble altar to make, as he afterward said, the church a safe before he died. He had canned meat, crackers and water to supply him for several days. In fact he has since admitted that he thought it must be a great success. He had an audience, adding that he would have remained there till he starved.

## Over a Girl.

Romney, Tenn., Oct. 24.—Friday night, while driving in a buggy, a quarrel broke out between two men. A friend who was with him was, it is believed, fatally hurt.

# THE WHITE CITY.

Several State Buildings at the World's Fair Dedicated.

New York and Ohio Have Particularly Grand Occasions.

Chicago Beginning to Assume Its Natural Appearance After Its Week of Carnival—Let All Americans Head West for the London Times.

CHICAGO, Oct. 24.—New York, Ohio, Pennsylvania, Kansas, Iowa and Rhode Island were the states whose buildings were dedicated Saturday. New York and Ohio had militia and music, but the exercises at the other places were simple in the extreme. The buildings dedicated are all located in the north end of the park.

According to the front in the numerous dedications of state buildings, Thursday was that of New York. No other state surpassed her in the number and character of dedications. Many were participating in the exercises, and the building itself proved to be one of the finest in all the White City. A large assembly of guests, present, and the invited guests alone numbered 600.

After music and prayer, the exercises began with the formal assignment of the building to the state of New York by Chauncey M. Depew, as president of the board of managers of the exhibit of the state of New York. Then came the acceptance of the building by Governor General Davis, and next addresses by Gov. Flower and Archbishop Corrigan.

The dedication party at New York, McElroy and music by Sousa's marine band successfully brought the dedication to a close.

The city is beginning to assume its natural appearance. All the out-going morning trains are crowded with visitors returning to their homes.

London, Oct. 24.—The Times through-out its article on the Chicago Columbian celebration, praises at Mr. Depew, but extends the harshest criticism to the United States. The paper says that when Mr. Depew extends his views from his own to other countries his sympathies are a little incomplete.

We are not sure that the paper is quite just in his historical review.

Continuing, the Times says: "We have no wish to depreciate the value and importance of the services which the United States have rendered to the old world and ourselves. Not the least among them is the fact that the United States have rendered to the world a material prosperity greater than ever before known, and an energy and resolution which have done much to make the powers of the world obedient to man and which never, perhaps, have displayed themselves on so stupendous a scale as in the yet unfinished preparations for the Columbian exhibition. It would be little to say that there are other countries that could do the same if they tried. The fact remains that the United States have done what no other country has ever done, and have proved to the world what wonders can be executed by industrial enterprise and skill animated by patriotism and the resolve to lead in everything."

CHICAGO, Oct. 24.—Aunt Mary Moore, who was born in 1790, and who had lived until January 6, and without doubt the oldest person in this section, died at the residence of Elias Jones, who lives on the Montgomery line, in Robertson county. She had passed through the vicissitudes of two wars, and was conscious to the hour of her death, giving reminiscences of the closing of the last and beginning of the present century.

A Head-End Collision. CHICAGO, Ill., Oct. 24.—A head-end collision on the "Clover Leaf," at Rardin, a small station north of here, in which several lives are reported to have been lost, has reached this city. On account of the darkness of the night it is impossible, at this hour, to get full particulars.

# WATER SCARCITY.

It Becomes Necessary to Guard Locomotives From Suffering People. READING, Pa., Oct. 24.—The extent of the inconvenience and suffering caused by the great scarcity of water at points north of here can hardly be imagined, and it is stated as an actual fact that some places beyond Port Clinton, Ohio, it is actually necessary to guard the tanks of the locomotives to prevent the people from carrying off the water. It is stated that on one of the divisions of the Lehigh Valley railroad the water to supply the locomotives is transported by a small canal, and the leading line of the few cities in the Schuylkill valley where water supply has not been affected by the drought. The water in the drought mountain fairs has broken out at several places.

# TERRIBLE ACCIDENT.

Seven Persons Killed and Ten Wounded at Los Angeles, Cal. LOS ANGELES, Oct. 24.—A discovery day celebration here ended with an awful accident. Henry Wilson, who was in charge of the fireworks, had a bomb in his hand, called a salute of bombs. The bomb consisted of short lengths of cast-iron pipe, in which were placed dynamite. The bomb exploded, and the explosion resembled that of cannon. Two went off successfully, but the third burst, the explosion of the fourth, which was in the air, killed seven persons and wounded ten. The explosion blew a great hole in the ground.

# NEW AND FATAL DISEASE.

A Japanese Vessel Arrives at New York With Heri Heri. NEW YORK, Oct. 24.—A new disease, contagious and fatal, has reached this port, causing much alarm among the health authorities at quarantine. The disease is imported from Japan, where it is known as beriberi. The bark, the P. Cann, arrived off quarantine Sunday, 170 days out from Iloilo, and reported that two deaths from the disease had occurred on route. Seaman Thomas Russell died on September 23, and Carpenter John Nugent on October 8. Both were buried at sea. When the ship arrived at Norfolk, Va., the first mate and seven men who were stricken with beriberi were put ashore and sent to the hospital.

The disease is unknown here. The authorities are at a loss how to handle it should other ships follow with the disease on board. The Cann is laden with sugar and tea, and makes the third vessel which has reached this port in the past few weeks on which the disease has been reported. The disease is said to resemble the yellow fever somewhat, but it is more fatal. It has been telegraphed to the Quarantine and thoroughly disinfected, while stringent measures will be adopted to cope with the disease from other vessels arriving from the fever-stricken Japanese ports.

# WHITES AND NEGROES.

There is Another Conflict, in Which the Colored Leader is Killed. TRENTON, N.J., Oct. 24.—A sheriff's posse was sent out on Sunday to arrest the ringleaders of the negroes in the Saturday night's shooting affray, which resulted in the death of a white man and the wounding of several negroes. The posse consisted of a few scratchers, but the negro ringleader was killed. The governor of Florida has been telegraphed for military assistance and Sanford has offered help, but cool heads here believe that the crisis has passed. The white citizens are armed and well equipped, and the supply of rifles is rather deficient. The negroes are well armed and are in camp about one mile from town. The coroner's inquest was held Sunday on the body of the Negro killed Saturday night. The verdict was that "he was killed while resisting officers by a shot fired by some person unknown."

# SIX SKELETONS.

Unearthed at Neville, O., Believed to Be Either Aborigines or Prehistorians. FELICITY, O., Oct. 24.—At Neville, a contractor employed in grading the streets turned up a prehistoric skeleton. Investigation disclosed the presence of the skeletons of six well-developed persons, all of which were believed to be a remarkable discovery. The skeletons are believed to be those of persons who were either aborigines or prehistorians. Near by are two mounds, stately and sharply, their sides and summits overgrown with forest trees of uncertain age. Man's effort looking to the opening of these mounds have been made, but their owners have always obstinately refused to allow them to be disturbed. The discovery and the probable sequence is one of the greatest importance, and will certainly attract the active attention of scientists who are seeking the "missing link."

McLaughlin, the editor and publisher of the Times, on the charge of malicious libel. The defendants were held on their own recognizance. # THE WHITE CITY.

Several State Buildings at the World's Fair Dedicated.

New York and Ohio Have Particularly Grand Occasions.

Chicago Beginning to Assume Its Natural Appearance After Its Week of Carnival—Let All Americans Head West for the London Times.

CHICAGO, Oct. 24.—New York, Ohio, Pennsylvania, Kansas, Iowa and Rhode Island were the states whose buildings were dedicated Saturday. New York and Ohio had militia and music, but the exercises at the other places were simple in the extreme. The buildings dedicated are all located in the north end of the park.

According to the front in the numerous dedications of state buildings, Thursday was that of New York. No other state surpassed her in the number and character of dedications. Many were participating in the exercises, and the building itself proved to be one of the finest in all the White City. A large assembly of guests, present, and the invited guests alone numbered 600.

After music and prayer, the exercises began with the formal assignment of the building to the state of New York by Chauncey M. Depew, as president of the board of managers of the exhibit of the state of New York. Then came the acceptance of the building by Governor General Davis, and next addresses by Gov. Flower and Archbishop Corrigan.

The dedication party at New York, McElroy and music by Sousa's marine band successfully brought the dedication to a close.

The city is beginning to assume its natural appearance. All the out-going morning trains are crowded with visitors returning to their homes.

London, Oct. 24.—The Times through-out its article on the Chicago Columbian celebration, praises at Mr. Depew, but extends the harshest criticism to the United States. The paper says that when Mr. Depew extends his views from his own to other countries his sympathies are a little incomplete.

We are not sure that the paper is quite just in his historical review.

Continuing, the Times says: "We have no wish to depreciate the value and importance of the services which the United States have rendered to the old world and ourselves. Not the least among them is the fact that the United States have rendered to the world a material prosperity greater than ever before known, and an energy and resolution which have done much to make the powers of the world obedient to man and which never, perhaps, have displayed themselves on so stupendous a scale as in the yet unfinished preparations for the Columbian exhibition. It would be little to say that there are other countries that could do the same if they tried. The fact remains that the United States have done what no other country has ever done, and have proved to the world what wonders can be executed by industrial enterprise and skill animated by patriotism and the resolve to lead in everything."

CHICAGO, Ill., Oct. 24.—A head-end collision on the "Clover Leaf," at Rardin, a small station north of here, in which several lives are reported to have been lost, has reached this city. A special train carrying all the physicians in the city left here at 7 o'clock for the scene of the wreck. On account of the darkness of the night it is impossible, at this hour, to get full particulars.

Half Million Began at Hamburg. HAMBURG, Oct. 24.—A large crowd broke out at an early hour Saturday morning in the Hamburg-American Packet Co.'s warehouse, situated in the Kleine Grasse, the quarter of the city. Firemen were promptly at the scene, but the firemen's efforts the building was completely gutted. The warehouse contained a great quantity of valuable merchandise. The loss is placed at 3,000,000 marks (\$500,000).

Seven Fishermen Drowned. MADRID, Oct. 24.—A violent storm prevailed along the Spanish Mediterranean coast, and a number of wrecks of fishing boats are reported. A fishing smack belonging to Barcelona, Spain, the smack sank and the fishermen started to swim ashore. Before the boats reached the scene of the wreck seven of the fishermen were drowned.

Several Negroes Drowned. MARSHALL TOWN, Oct. 24.—Seven Negroes were drowned while crossing Elton's ferry, twelve miles south of Elton. The rope broke, and all were thrown into the river, only one person being saved. The bodies have not been recovered.

A Remarkable Feast. VIENNA, Oct. 24.—Miss Tomkinson, a young English woman, has performed the remarkable feat of riding on a horse back from Innsbruck, in the Tyrol, to Silesia, and back, a distance of 200 miles, through a very rough country.

Release of Irish Prisoners. LONDON, Oct. 24.—It is rumored that a serious difference has arisen in the cabinet over the question of the release of the prisoners who were released of having taken part in the dynamite outrages that occurred several years ago.

Tell a Prince. BOMBAY, Oct. 24.—Prince Olsevalski was returning in a motor car from a political meeting, when he was attacked by a mob who pelted him with stones. He is a prince of the Roman empire and a magnate of Hungary.
